## PROFESSIONAL EXPERIENCE

---

### Team Lead – Benji, Toronto

Jan 2019 – Present

*Responsible for creating and maintaining Angular app used to facilitate online coaching and training*

- Worked closely with co-founder to turn ideas into artifacts to be released
- Directed a team of 3 developers and made sure the deadlines are met
- Angular development using NgRx to maintain a state in the application
- Worked with websockets to create a collaborative experience
- Used ProseMirror and Tiptap editor to create collaborative editor

**Technical Skills:** Angular, TypeScript, RxJs and NgRx

### Frontend Developer – [Coachcare](#), New York

Aug 2017 – December 2018

*Responsible for creating and maintaining Angular 2+ app used by Coaches and Clinic Admins*

- Got requirements from business analysts and transformed them in to great UI that does not break
  - UI involved a lot of charts, widgets, tables and modals
  - Created Components, Modules, Directives, Pipes, Routes and libraries
  - Optimized using Lazy Loading and Organized code using barrels and Shared Modules
  - Used material Angular extensively
  - Updated to latest version of Angular and Angular Material to ensure best performance
  - Internationalization of app by using self-created i18n module
  - Wrote unit tests in using Jasmine for API
  - I also got the chance to contribute to some open source projects based on Angular
-

- Be part of biweekly standup meetings

**Technical Skills:** Angular, TypeScript, Angular Material, RxJs, HTML and SASS

**Full Stack Developer - [AmperSlash](#), Mississauga**

Jan 2017 – Sep 2018

*Worked remotely on a number of projects under AmperSlash Ltd, helping the company grow its revenue manifold*

- A MEAN app that keeps an eye on how long and how much a web server has been available. Calculate downtime and build charts and tables to display the information.
- Serpbook.com SEO rank tracking and reporting. VanillaJs, jQuery and HTML CSS. I dealt with dataTables and charts extensively. I helped move from page reload based data submission to Ajax based data submission. Created many UI components that help track the progress of Keywords in different search engines. It is one of the projects that I'm proud of.
- Worked on newly acquired software to revamp its UI and bring the code up to standards

**Technical Skills:** JavaScript, jQuery, DataTables, HighCharts, HTML, CSS, Node and MongoDB

**Freelancer - [Upwork](#)**

Aug 2014 – Jan 2017

*Worked on many projects for a number of clients based in USA, Europe and Canada*

- Created responsive websites and Single Page Applications in Angular using Firebase and later migrated to Firestore
- Built interactive and animated web pages using Tweenmax and Scrollmagic
- Created webpages using Bootstrap and vanilla Js
- Follow tight deadlines and work on multiple projects at a time
- Web services using Node.js and Express

A few of my projects are as under

- <http://khasol.com/khasol/>
- <http://www.khasol.com/artsy/>
- <http://khasol.com/icubecane/home.html>
- <http://eatdreambe.com>
- <http://www.khasol.com/neue/>
- <http://www.khasol.com/gravita/>
- <http://www.proctorandmatthews.com/>

**Technical Skills:** Firebase, Firestore, HTML, CSS, JavaScript, jQuery, HighCharts, TweenMax, Scrollmagic and a number of other Js libraries

**Associate Software Engineer - [CureMD](#), Lahore**

Jul 2014 – Mar 2015

*Worked on CureMD's IT Health product*

- Software Designing and Implementation that included creating Object Model, Sequence Diagrams and Database Design.
- Implementation of WCF web services, using SQL, writing Stored Procedures
- Creating Front End using JavaScript and jQuery
- Responsible for a particular feature and responsibility to meet deadlines for demo to clients

**Technical Skills:** MsSQL, .Net, WCF web services, SQL, HTML, CSS, jQuery and JavaScript
